## APPENDIX PAGE 1

### PLAN DESCRIPTION

The plan is a contributory defined benefit plan covering all Lawrence Retirement System member unit employees deemed eligible by the retirement board, with the exception of school department employees who serve in a teaching capacity. The pensions of such school employees are administered by the Teachers' Retirement Board.

Instituted in 1937, the System is a member of the Massachusetts Contributory Retirement System and is governed by Chapter 32 of the Massachusetts General Laws. Membership in the plan is mandatory immediately upon the commencement of employment for all permanent, full-time employees.

The system provides for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Benefit payments are based upon a member's age, length of creditable service, level of compensation, and group classification.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service, or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65 (for certain hazardous duty and public safety positions, normal retirement is at age 55).

A retirement allowance consists of two parts: an annuity and a pension. A member's accumulated total deductions and a portion of the interest they generate constitute the annuity. The difference between the total retirement benefit and the annuity is the pension. The average retirement benefit is approximately 80 - 85% pension and 15 - 20% annuity.

Active members contribute either 5, 7, 8, or 9% of their gross regular compensation. Members joining the retirement system after January 1, 1979 must contribute an additional 2% on regular compensation earned at a rate in excess of \$30,000. The percentage rate is keyed to the date upon which an employee's membership commences. These deductions are deposited in the Annuity Savings Fund and earn interest at a rate determined by the Executive Director of PERAC according to statute. When a member's retirement becomes effective, his/her deductions and related interest are transferred to the Annuity Reserve Fund. Cost-of-living adjustments, and any other increase in benefits imposed by state law granted between 1981 and 1996, are borne by the state.

The pension portion of any retirement benefit is paid from the Pension Fund of the System. The governmental unit employing the member must annually appropriate and contribute the amount of current year pension payments as determined by PERAC's Actuary. In the past, retirement systems were paying only the actual retirement benefits that were due each year. Systems had no statutory authorization to put aside any money for the future benefits of employees who are now working. Large unfunded liabilities resulted from operating upon this pay-as-you-go basis. In 1977, legislation authorized local governments to appropriate funds to meet future pension obligations.

In 1983, additional legislation was passed requiring the transfer of investment earnings (in excess of the amount credited to member accounts) into the Pension Reserve Fund. These initiatives have significantly reduced the rate of growth of the retirement systems' unfunded liabilities and, in some systems, have actually reduced such liability.

Administrative expenses are funded through excess investment income.

Members who become permanently disabled for further duty may be eligible to receive a disability retirement allowance. The amount of benefits to be received in such cases is dependent upon several factors including: whether or not the disability is work related, the member's age, years of creditable service, level of compensation, veteran's status, and group classification.

Employees who resign from service and who are not eligible to receive a retirement allowance, or are under the age of 55, are entitled to request a refund of their accumulated total deductions. In addition, depending upon the number of years of creditable service, such employees are entitled to receive either zero (0%) percent, fifty (50%) percent, or one hundred (100%) percent of the regular interest that has accrued upon those deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

## APPENDIX PAGE 2

### SIGNIFICANT ACCOUNTING POLICIES

The accounting records of the System are maintained on a calendar year basis in accordance with the standards and procedures established by the Executive Director of Public Employee Retirement Administration Commission. All investments are stated at market value at the end of the year.

The Annuity Savings Fund is the fund in which members' contributions are deposited. Active members contribute either 5, 7, 8, or 9% of their gross regular compensation. Voluntary contributions, redeposits, and transfers to and from other systems, are also accounted for in this fund. Members' contributions to the fund earn interest at a rate determined by PERAC. Interest for some members who withdraw with less than ten years of service is transferred to the Pension Reserve Fund. Upon retirement, a members' contributions and interest are transferred to the Annuity Reserve Fund. Dormant account balances must be transferred to the Pension Reserve Fund after a period of ten years of inactivity.

The Annuity Reserve Fund is the fund to which a member's account is transferred upon retirement from the Annuity Savings Fund and Special Military Service Credit Fund. The annuity portion of the retirement allowance is paid from this fund. Interest is credited monthly to this fund at the rate of 3% annually on the previous month's balance.

The Special Military Service Credit Fund contains contributions and interest for members while on a military leave for service in the Armed Forces who will receive creditable service for the period of that leave.

The Expense Fund contains amounts transferred from investment income or appropriated by the governmental units for the purposes of administering the retirement system.

The Pension Fund contains the amounts appropriated by the governmental units as established by PERAC to pay the pension portion of each retirement allowance.

The Pension Reserve Fund contains amounts appropriated by the governmental units for the purposes of funding future retirement benefits. Any profit or loss realized on the sale or maturity of any investment, or on the unrealized gain of a market valued investment as of the valuation date, is credited to the Pension Reserve Fund. Additionally, any investment income in excess of the amount required to credit interest to the Annuity Savings Fund, Annuity Reserve Fund, Expense Fund, and Special Military Service Credit Fund, is credited to this Reserve account.

The Investment Income Account is credited all income derived from invested funds. At the end of the year, the income credited to the Annuity Savings Fund, Annuity Reserve Fund, Expense Fund, and Special Military Service Credit Fund, is distributed from this account, and the remaining balance is transferred to the Pension Reserve Fund.

## LAWRENCE CONTRIBUTORY RETIREMENT SYSTEM

### FUNDING SCHEDULE

| Fiscal Year | Normal Cost | Unfunded Liability | Funding Amortization of UAAL | Net 3(8)(c) Payments | Schedule Contribution |
|-------------|-------------|--------------------|------------------------------|----------------------|-----------------------|
| 2016        | 2,887,967   | 221,182,182        | 14,816,128                   | 692,185              | 18,396,280            |
| 2017        | 3,010,706   | 222,359,423        | 15,327,878                   | 692,185              | 19,030,769            |
| 2018        | 3,138,661   | 223,076,490        | 15,857,332                   | 692,185              | 19,688,177            |
| 2019        | 3,272,054   | 223,278,643        | 16,405,102                   | 692,185              | 20,369,340            |

#### Amortization of Unfunded Liability as of July 1, 2015

| Year | Type         | Original Amort. Amount | Percentage Increasing | Original # of Years | Current Amort. Amount | Years Remaining |
|------|--------------|------------------------|-----------------------|---------------------|-----------------------|-----------------|
| 2005 | ERI2002-LHA  | 2,746                  | 4.50%                 | 24                  | 4,456                 | 13              |
| 2005 | ERI 2002-VOC | 19,415                 | 4.00%                 | 24                  | 29,889                | 13              |
| 2005 | ERI2002-City | 405,220                | 4.00%                 | 24                  | 623,818               | 13              |
| 2005 | ERI2003-City | 129,504                | 4.00%                 | 24                  | 199,365               | 13              |
| 2005 | ERI2003-VOC  | 4,729                  | 4.00%                 | 24                  | 7,280                 | 13              |
| 2016 | Fresh Start  | 13,951,320             | 3.42%                 | 23                  | 13,951,320            | 23              |

Notes on Amortization of Unfunded Liability

Year is the year the amortization base was established.

Type is the reason for the creation of the base. Examples are Gain/(Loss) or Fresh Start.

Original Amortization Amount is the annual amortization amount when the base was established.

Percentage Increasing is the percentage that the Original Amortization Amount increases per year.

Original # of Years is the number of years over which the base is being amortized.

Current Amortization Amount is the amortization payment amount for this year.

Years Remaining is the number of years left to amortize the base.

Lawrence Retirement System

Actuarial Valuation as of January 1, 2014

**PERAC Information Disclosure**

The most recent actuarial valuation of the System was prepared by Stone Consulting, Inc. as of January 1, 2014

|   |             |                 |
|---|-------------|-----------------|
| The normal cost for employees on that date was: | \$6,197,062 | 9.1% of payroll |
| The normal cost for the employer was:           | \$2,272,399 | 3.4% of payroll |

|   |               |
|---|---------------|
| The actuarial liability for active members was:                       | \$166,391,208 |
| The actuarial liability for retired members was (includes inactives): | \$212,791,753 |
| Total actuarial accrued liability:                                    | \$379,182,961 |
| System assets as of that date:  | \$168,979,467 |
| Unfunded actuarial accrued liability:                                 | \$210,203,493 |
| The ratio of system's assets to total actuarial liability was:        | 45%           |

As of that date the total covered employee payroll was: \$67,766,770

The principal actuarial assumptions used in the valuation are as follows:

|                          |                     |
|--------------------------|---------------------|
| Investment Return:       | 7.75% per annum     |
| Rate of Salary Increase: | Select and ultimate |
